Much wider exposure base than most commercial promotion programs. Increases Results.

Available to You through Nationwide Group, Inc., Realtors

☐ **CPIX Michigan Commercial Property Information Exchange. Much wider exposure**

Michigan based commercial exposure multi list.

Available through Nationwide Group, Inc., Realtors

More Experience than traditional commercial brokers.

We began 60 years ago,
decades before the market split into "commercial brokers" and "general market brokers".

One of the results was that

commercial brokers mostly avoided general market brokers.

Instead, Our family firm kept promoting and multi listing into both brokerage communities.

We discovered that commercial industrial buyers sometimes used general market brokers.

Today our Sellers properties reach both of the large brokerage markets.

The Result is much more exposure to financially qualified buyers.

That's the kind of experienced judgment that helps make sales in all markets – even depressed markets.

Its just one example of how our experience is genuine. It is ours. We earned it.

We didn't buy a "franchise name" to appear experienced. Real Estate has a lot of that.

Our 40 years experience means so much right now

We have already sold Michigan real estate in 4 prior depressed markets.

Our family owned group is a specialized team made up of
very experienced - hands on practitioners - combined with newer aggressive go getters.

Together they produce results - even in slow markets – others can miss.

Call today to discuss your real estate needs. 248.937.1801
